

GET CHA RIGHT FITNESS

THE FREE 3-DAY SEDENTARY RESET

A beginner-friendly starter plan for people who spend most of the workday sitting. Start moving, rebuild strength, and create momentum without a gym membership.

BEGINNER FRIENDLY

NO GYM REQUIRED

MINIMAL EQUIPMENT

Before You Start

Move at a comfortable pace and focus on good form. Rest about 45-90 seconds between sets when needed. Stop if you experience sharp pain, dizziness, chest pain, or unusual shortness of breath. If you have medical concerns or have been advised to limit exercise, speak with an appropriate healthcare professional before starting.

DAY 1

MOVE AGAIN

Get your body moving and practice basic movement patterns.

Easy Walk	5 minutes	Walk at a comfortable pace. You should still be able to hold a conversation.
Chair Squat	3 sets x 10 reps	Sit back toward a stable chair, lightly touch the seat, then stand tall.
Wall or Incline Push-Up	3 sets x 8-12 reps	Use a wall or sturdy elevated surface and keep your body controlled.
Standing Knee Raises	3 sets x 10 each side	Stand tall and raise one knee at a time. Hold a stable surface if needed.

Glute Bridge	3 sets x 12 reps	Drive through your feet and squeeze your glutes as you raise your hips.
Hip Flexor Stretch	30 seconds each side	Gently shift forward until you feel a comfortable stretch through the front of the hip.
Easy Walk	5 minutes	Finish with another relaxed walk.

DAY 2

MOBILITY + CORE

Focus on movement, trunk control, and breaking up the sitting routine.

Walk	10-20 minutes	Keep the pace comfortable. The goal is consistent movement, not exhaustion.
Cat-Cow	2 sets x 8 reps	Move slowly between a rounded and gently extended spine while breathing naturally.
Bird Dog	3 sets x 8 each side	Extend the opposite arm and leg while keeping your torso controlled.
Dead Bug	3 sets x 8 each side	Keep your lower back controlled while slowly moving the opposite arm and leg.
Calf Raises	3 sets x 15 reps	Raise your heels slowly, pause at the top, then lower under control.
Hip Flexor Stretch	30 seconds each side	Keep the stretch gentle. You should feel tension, not pain.
Chest & Shoulder Stretch	30 seconds each side	Use a doorway or wall and gently open the chest and shoulder.

DAY 3

BUILD YOUR FOUNDATION

Combine basic strength work with light conditioning.

Easy Walk	5 minutes	Use this as your warm-up before strength work.
Chair or Bodyweight Squat	3 sets x 12 reps	Use the chair if needed, or perform controlled bodyweight squats.
Incline Push-Up	3 sets x 10 reps	Choose a sturdy surface that lets you complete controlled reps.
Backpack Romanian Deadlift	3 sets x 12 reps	Use a lightly loaded backpack. Push your hips back, then stand tall.
Backpack Row	3 sets x 10 each side	Pull the backpack toward your side while keeping your torso controlled.
Glute Bridge	3 sets x 15 reps	Squeeze your glutes at the top before lowering slowly.
March in Place	3 rounds x 60 seconds	Finish with controlled marching. Rest as needed between rounds.
